

CUSTOMER NOTICE
September 23, 2010

ATTENTION: DIXIE & DERRY ROAD INDUSTRIAL CUSTOMERS

As a result of a severe thunderstorm in the early morning hours on September 22, 2010, several commercial customers in northern Mississauga have been left without electricity.

The force of the winds from this storm brought down seven poles and left approximately 50 customers in the area of Dixie and Derry road without power.

Enersource crews are working hard to restore power to those affected. They will be removing the downed poles, wire and debris and installing replacement poles over the course of the next day.

We currently expect power to be fully restored by the morning of Friday September 24, 2010.

As always, the safety of our crews and the local community remains our top priority.

Thank you for your continued patience. We will provide updates as the situation progresses.
