## **ENERSOURCE JOINS THE FIGHT AGAINST DIABETES**

(Mississauga, ON) – Enersource is once again getting into the spirit of giving, today making a donation of more than \$2,400 to the Canadian Diabetes Association.

“Enersource is proud to be involved in the fight against diabetes,” said Craig Fleming, President & CEO of Enersource Corporation. “Today’s donation will help those family and friends affected by this disease, many right here in our own community, to lead a more balanced and healthy lifestyle.”

“We truly appreciate the donation and the support,” said Gary O’Connor, Executive Director, Ontario for the Canadian Diabetes Association. “It’s because of companies like Enersource – with their commitment to community – that are helping us lead the fight against diabetes as we work to find a cure.”

With more than nine million Canadians already living with diabetes or pre-diabetes and the numbers fast increasing, the Enersource team saw an opportunity to give back. Each year, the company holds a raffle at its annual golf tournament, the proceeds of which go to a charity or not-for-profit organization like the Canadian Diabetes Association, through the Enersource ‘Spirit of Giving’ program.
